CENTRE CARNIVAL

TO LAST SIX DAYS

Alumni Reception, Queen's Ball and Golf Tournament To be Added Features

The programme of the seventeenth annual Centre College Carnival has been announced by Ben Cregor, chairman of the Carnival Committee and president of the senior class.

Three new features have been added to the list of events this year. An alumni reception and ball, to be held Monday night, June 12; the queen's ball Saturday night, June 10, and a golf tournament at the Danville Country Club Monday afternoon, June 12th., are the innovations.

The student body has elected Miss Elizabeth Fox of this city and James "Red" Roberts, queen and king.

The committee in charge of the carnival is composed of Ben Cregor, chairman; Emmet Durrett, secretary; Edgar Newlin, treasurer; Leslie Baker, J. B. Milliken, McClary Mercer, George Swinebroad, J. Patterson Tanner and Dr. Frank L. Rainey, faculty advisor.

The programme for the carnival and commencement exercises is as follows:

Friday evening, June 9th., Kappa Alpha Fraternity dance; Saturday evening, June 10th., Queen's ball, college gymnasium; Sunday morning, June 11th., baccalaureate sermon; Monday afternoon, June 12th., golf tournament; Monday evening, alumni reception and ball, college gymnasium; Tuesday morning, June 13th., class day exercises, chapel; Tuesday afternoon, tennis tournament, campus; Tuesday evening, carnival play, by Stock and Buskin Club; Wednesday morning, June 14th., graduating exercises, chapel; Wednesday afternoon, baseball game; Wednesday night, coronation, awarding of athletic letters, carnival dance in gymnasium.

Baptist Church News

Due to the absence of the pastor in Jacksonville, Florida, the church notes are abbreviated this week. The Sunday School and B. Y. P. U. services will be held at the usual hours, next Sunday, but there will be no preaching service morning nor evening.

The prayer service next Wednesday evening at 7:30, topic—"The Dispensations of Conscience and Human Government." It is especially desired that there be a good attendance at the prayer service next week. There will be a short business session of the Advisory Council following the meeting.

The pastor will preach at the morning service on the 28th., and in the evening Prof. Baird, of Berea College, will speak at the regular hour of service. A quartette of young people from Berea will accompany him and render special music. Prof. Baird is a forceful and entertaining speaker and will bring a worth while message. We should have a church full to enjoy this special service.

The pastor is depending on your loyalty during his absence to make the services better than usual by your attendance and co-operation.

Some women's tongues are like an eight day clock. They have a long time to run down.

EQUAL TO ALL DEMANDS

When your thoughts turn to spring wraps and you are distracted in trying to choose between the practicability of a coat and the graceful smartness of a cape, remember that it is easy to make a compromise. Some one has foreseen your difficulty in the choice of a wrap for all-round wear and solved it for you. The cape-coat is here in several delightful variations, one of them shown in the illustration.

Wool jersey or any of the soft, lightweight wool coatings, make wraps of this kind. Their capes are lined with crepe or satin, usually in a quiet contrasting color. The model pictured is equal to all weather emergencies. It is fastened with two large buttons and they make, with buttonholes, a smart decorative feature on the cape position.

Jud Tunkins.

Jud Tunkins says the reason we see the worst side of so many people is that a man is liable to keep silent when he's happy instead of when he loses his temper.

Votes of British Parliament Chiefs.

The difference between the speaker of the English house of commons and the lord chancellor, who occupies a similar position in the house of lords, is that while the speaker cannot take part in debates and can vote only when there is a tie, the lord chancellor is entitled to speak and vote on all occasions.

Ravages by Rats.

It has been estimated that the economic loss from rats in the United States is \$200,000,000 a year. In other estimates before the war, the annual damage in the United Kingdom was \$70,000,000. As a carrier of bubonic plague and other diseases, the rat is charged with the loss of more human lives than all the wars in history.

Beauty in the Sky.

To see the stars well, one must make his camp in the desert. There as he lies rolled for the night in his blankets, surrounded only by distance and desolation, he looks up into greater beauties than all the museums, galleries, and conservatories of civilization can offer. But these things can be seen in part from any farm, and a little even from the street corner.—Frank A. Waugh, in "The Landscape Beautiful."

"Pseudo."

The prefixes of "pseudo" and "pseudo" are derived from the Greek pseudos, false, and pseudos, falsehood. Combined with other words—or forms of words—they have the following meaning: 1. A false, spurious or counterfeit condition. 2. An abnormal form of or a close resemblance to (something). 3. A resemblance in many symptoms, but a lack of the specific characters that mark the true form; said of diseases. 4. Non-Euclidean geometry—as, for example, a pseudo-angle.

Classified Column

Value of Society.

Society both this good at least; that it lessens our conceit, by teaching us our significance, and making us acquainted with our betters.—Thackeray.

Why Turn to Right?

The first "keep to the right" law enacted in the United States is believed to have been passed by the Maryland legislature early in 1800.

Physiological Fact.

There is a great deal of unmapped country within us which would have to be taken into account in an explanation of our gusts and storms.—George Eliot.

Wonderful Nile Dams.

Through the work of British engineers it is possible to regulate within a few feet the amount of water that shall flow down the Nile bed; floods are unknown; so is that terrible state of affairs when there isn't enough water.

A Grand Finale.

Musical professor, explaining why we had to have his new car towed in: It's like this, the engine made staccato reports, then the car changed keys, and went on four flats, and it ended up with a grand pause.—Science and invention.

As Usual.

There was a woman in our town who was so wondrous wise she used her ears for hearing things, for seeing things her eyes. And when she'd heard and seen it all, what did this female do but use her tongue for telling every blessed thing she knew.—Geotinge.

Laying Mash Chicken Feed; Scratch Feed for young chicks, that make them grow.

Harrodsburg Ice & Produce Co. (5-4-3f.)
